Cleaning & Care

Regular, thorough cleaning and care of the components, especially the mesh nebulization units, is important for a long lifespan. These should be cleaned regularly, i.e. after each inhalation process. The M-neb® vet starter kit contains a care and basics set for this purpose, which you can also obtain from us separately as well as all components:

Art.-No.	Qty.	Illustration	Description	Price gross net
202 000 01	1x		Care and basics set contains: <ul style="list-style-type: none"> • Dose bottle with distilled water (250 ml) • Concentrated detergent for mesh nebulization units (5 ml) • Medication and mixing cup with scale (20 ml) • Isotonic saline solution 0,9 % (4 x 5 ml) 	13,60 € 11,43 €
202 000 02	1x		Medication and mixing cup with scale (20 ml)	0,90 € 0,76 €

202 000 07	1x		Concentrated detergent for mesh nebulization units (50 ml)	29,90 € 25,13 €

Dead Sea Brine

A day at the Dead Sea with brine from NEBU-TEC

With the Dead Sea Brine from NEBU-TEC you can bring the sea climate directly to your home. Due to its higher salt content (> 0.9 %), the Dead Sea brine from NEBU-TEC is called hypertonic. This enables it to support the damaged cells of the respiratory tract in the removal of tough, stuck mucus by extracting water from the cells and thus liquefying the mucus on the cells. This allows the cilia to move more freely again and the secretion can be coughed up. Dead Sea brine not only provides your pet with valuable minerals but can also have an anti-inflammatory and decongestant effect on mucous membranes. For this reason, inhalation of Dead Sea brine is used to support a wide range of respiratory diseases.

Highest quality and purity standards for the health of humans and animals

NEBU-TEC Dead Sea Brine is available in two different concentrations. It contains sterile water for injection with 1 % or 2.5 % magnesium-enriched Dead Sea salt. For our highest quality and purity standards, the Dead Sea brine is produced under clean room conditions, filtered and filled into liter bottles. This process is permanently and strictly controlled. Each container is - for the health of humans and animals - provided with a tamper-evident seal.

Art.-No.	Qty.	Illustration	Description	Price gross net
202 000 08	1x		NEBU-TEC Dead Sea Brine	11,50 € 9,66 €
202 000 09	1x		Available in two concentrations; 1 liter concentration: 1 %	
			concentration: 2,5 %	11,50 € 9,66 €
